

A photograph of a family at a playground. A young girl in a light-colored cardigan and patterned pants is climbing a wooden structure. A man in a red and black plaid shirt is standing nearby, smiling. Another person is partially visible on the left. The background shows a grassy area and trees with autumn foliage.

We'll come to you

Give your employees access to affordable health care right at their doorstep. We've partnered with Heal to offer on-demand doctor house calls in two hours or less.

How it works:

- Health plan members download the Heal app from their app store
- They book an appointment and receive care within a few hours
- Doctors go right to their home or office
- Visits cost the same amount as a normal copay

Our service through Heal is for our in-network Aetna Open Access® Managed Choice (OAMC) and Managed Choice® (MC) health plans. All doctors go through our same credentialing process before being approved and contracted. The doctors used by Heal treat adults and children.

Heal works with us, so we can provide this service to your employees at no additional cost. Your employees are only responsible for the standard pay they would be charged at any traditional doctor's office. To view a list of Heal doctors, download the Heal app.

Download the Heal app from your app store.
