# Why Blue Shield of California

**Our mission is to ensure all Californians have access to high-quality health care at an affordable price**

We are the only major health plan to voluntarily cap our income at two percent of revenue, returning the difference back to our customers and the communities we serve.

**Helping California's small businesses grow with the right health coverage**

Whether it's a budding one-person operation or a booming 100-employee enterprise, small businesses across California share the same need for a healthy and productive workforce.

That's why we offer a wide range of small business health plans with solutions for controlling costs and promoting health.

From Central Valley farms to Silicon Valley startups, from San Diego surf shops to North Coast lumber mills, over 40,000 California small businesses.

Wherever your business is and whatever it may be, Blue Shield has a health plan that is the right size for you.

## What we offer your small business

### Off-Exchange Package

Our flagship package includes 60+ plans to offer employees. Plans can combine a variety of products and networks to meet the range of employees' needs.

### Mirror Package

Offers the same seven standardized plans that are offered on Covered California for Small Business directly from Blue Shield. Mirror PPO plans use the same Full PPO network as off-exchange plans, and mirror HMO plans use the Trio HMO network. Plans in the Mirror package cannot be offered alongside any plans in the off-exchange package.

# Understanding our plan names, benefit design, and product types

Our plan names make it easy to understand the benefits each medical plan offers by following this format:

Metal level + network name + product type + deductible + copay

## Example

**Platinum Access+ HMO 0/20 OffEx**

Off-Exchange package plan names end with "OffEx" while Mirror package plan names begin with "Blue Shield".

## Metal levels represent the level of coverage provided with a plan

These levels are standardized for all health carriers as part of the Affordable Care Act and are based on the "actuarial value," which indicates the average percentage of member health costs that would be covered by Blue Shield.

1	Platinum = 90%	2	Gold = 80%
3	Silver = 70%	4	Bronze = 60%

## Deductible and copay are key components of a plan benefit design

A deductible is the amount a member pays for covered services each calendar year before Blue Shield begins to pay. Specific services, such as preventive care, are covered before a member reaches the calendar-year deductible.

A member may have two kinds of deductibles: medical and pharmacy. The medical deductible applies to covered services such as physician office visits. The pharmacy deductible applies to outpatient prescription drugs obtained from a participating provider.

The predetermined amount (copayment) or percentage of the cost (coinsurance) a member is responsible for paying is based on their plan benefits.

## Product types within the plan packages

- 1 Preferred provider organization (PPO) plans
- 2 Health savings account (HSA)—compatible PPO high-deductible health plans (HDHPs)
- 3 Health maintenance organization (HMO) plans

# Off-exchange HMO plans

All of our off-exchange HMO plans for small business are available with one of three HMO provider network options: Access+ HMO®, Local Access+ HMO®, or Trio HMO. Plan designs are identical, with all specialties and levels of care are included.

- 1 Access+ HMO plans give members access to over 45,000 doctors and 370 hospitals.\*
- 2 Local Access+ HMO plans give members access to more than 32,000 doctors and 330 hospitals.†
- 3 Trio HMO plans are available in 47 counties and gives members access to 21,000 doctors and 340 hospitals from the Access+ provider network.‡

Trio HMO plans come with valuable bonus features not included with other HMO plans. Visit [groupcoverage.blueshieldca.com/brokertrio](https://groupcoverage.blueshieldca.com/brokertrio) to learn more about Trio HMO features and coverage areas.

You may offer Trio HMO plans alongside Access+ or Local Access+ plans, but Access+ cannot be offered alongside Local Access+. A business must be located in the plan's service area to offer an Access+ HMO, Local Access+ HMO, or Trio HMO plan, and eligible employees must live or work in the service area.

# The Department of Health and Human Services (HHS) recognizes that health plans need some flexibility in meeting the metal levels. A plan can meet a particular metal level if its actuarial value is within two percentage points of the standard. For example, a silver plan may have an actuarial value between 68% and 72%.

# HSA-compatible HDHP PPO plans

Many small businesses opt for high-deductible PPO plan coverage for their employees. The deductibles are higher, but monthly rates are lower and the plans come with the option to open a health savings account (HSA) to help pay for qualified medical expenses.

## **HDHPs paired with integrated HSAs offer numerous benefits:**

- 1 Access to a great network of providers
- 2 Lower monthly premiums
- 3 HSA funds are tax free\*
- 4 Funds can be used to pay for deductibles, copayments, coinsurance, dental services, vision services, prescription and over-the-counter medications, and menstrual care products

Compare plan benefit details using our digital Plan Comparison Tool. Choose from any of our plans and compare benefits side-by-side by visiting [blueshieldca.com/employerplans](https://blueshieldca.com/employerplans).

\* In California, HSA payroll contributions are still taxed at the state level, but the contributions are not subject to federal tax.
